IDT's Platinum Voice delivers high-quality, feature-rich service at the best available market rates.

Partner Benefits

By partnering with IDT, you can:

- Immediately leverage our global buying power
- Deliver your subscribers' feature-rich calls directly to the appropriate in-country fixed or mobile licensed national operator
- Decrease expenses associated with implementing and managing worldwide direct interconnects

Platinum Voice Features

Our route management systems, procedures and dedicated resources ensure your subscribers will receive high call quality and competitive rates:

- Direct Route Management
 - 500+ direct routes to licensed national providers and mobile operators minimizes network transfers
 - Routes are managed to maximize direct termination
 - Overflow is sent only to reliable, in-country facilities-based providers
- Extensive List of CLI Routes
 - 500+ direct routes
 - 200+ CLI-certified routes
- Transparency of ISUP Signaling for Roaming
 - OCN and RDN
- 24 x 7 Network Operations Support
- Proactive Management of Quality of Service (QoS) Parameters
 - Jitter, clipping, noise, mid-call disconnect
 - Route stability
 - Answer Seizure Ratio (ASR)
 - Average Length of Call (ALOC)
 - Call Completion Rate (CCR)
